With the Compliments
of the
CITY CLERK
Calgary, Alberta
Canada

To Tourists and Visitors

Calgary offers much of interest to visitors. Perhaps no city of its size on this continent possesses such fine stores and business buildings or a larger number of comfortable and beautiful homes. It offers every facility for business or amusement that can be found in much larger cities wherever they may be.

In addition to the Hotel Palliser, one of the finest hosteleries on the continent, there are many other first class hotels, with rates to suit all. Unusual shopping facilities exist and several beautiful modern theatres provide the best there is in drama, vaudeville and pictures.

A drive about the City will be found of interest, and the residential districts on both the north and south hills should be included, as from them a magnificent view on a clear day can be obtained of the Rockies. The Sarcee Indian Reservation adjoining the City on the southwest provides an interesting drive. St. George's Island and Bowness Parks are specially worthy of a visit.

For the sportsman there is, in season, shooting for duck, chicken and partridge, as well as mountain trout fishing, all within a few hours' drive from the City.

Calgary is at the gateway of the Rocky Mountains National Parks and an extremely interesting and picturesque motor drive of about three hours will take one to Banff (85 miles distant). Lake Louise and the Rockies are also available by motor car. The Banff-Windermere Highway links up with the Grand Circle Tour (Blue Trail), which connects all the scenic attractions in Western America: passing from Calgary south through Glacier Park (Montana), Yellowstone Park, Grand Canyon (Arizona), Los Angeles and then north through San Francisco, Crater Lake Park, Spokane, Columbia River Valley (Windermere), and Banff, east to Calgary.

The Calgary Motor Tourist Camp, operated by the Alberta Motor Association and Young Men's Section of the Calgary Board of Trade, provides camping facilities such as water, light, fuel, lavatories and fireplaces. A caretaker, sworn also as a constable, is on duty at the camp entrance for the purpose of safeguarding tourists' property which they may temporarily leave at this camping place. It is located at Stanley Park, on the Manchester Trail, in the southern section of the City, and is modernly equipped with showers, gas, electric light and a convention hall.

Sunshine Auto Camp—Gives every facility to the camping tourist. Cabins fully equipped—beds, tables, natural gas stoves, electric light.

Tenting space, natural gas for cooking, flush toilets, 12 free shower baths, laundry. Car washing free, and free swimming pool, 35 by 65 feet.

Camp store supplies at city price. Gas and oil station.

Room for a thousand cars per night. Price: 50c for camping and \$1.25 for cabin and garage.

Privately owned.

The Alberta Motor Association. For touring information or other assistance, visiting motorists are requested to call at the Club headquarters, 112 7th Avenue East. Secretary, J. J. Webster. Phone M6958.

The Calgary Board of Trade maintains offices in the Loughheed Building, corner First Street West and Sixth Avenue, and the staff are always pleased to answer questions in regard to the City or Country, and its many opportunities. Club rooms are maintained by the Board in the same building, to which all visiting business men are cordially welcome.

Golf and Country Clubs offer special facilities to those interested in outdoor sports.

The Municipal Golf Club is located in Shaganappi Park, and can be reached by the Killarney Electric Car Line or by motoring along the South Banff road. It is about four miles from the centre of the City. Visitors are permitted use of the links by applying to the caretaker; fees, 25 cents per game.

Regal Golf Club. A 5,985 yard golf course, situated in the N.E. section of the City. A hilly course, rich in turf, with a creek running through it, which adds to the "sportiness" of the course. There is also a ladies' course (nine holes). Four street cars will take you within 3 minutes of the Club house—two Crescent Heights, two Tuxedo Park. Membership fee: Gentlemen, \$20.00 per year; ladies, \$7.50 per year.

Oil and Gas Field. The Turner Valley Gas and Oil Field, in process of development, contains several wells producing gas and oil. Gasoline is extracted from the wet gas, and some of the gas, after treatment, is piped to Calgary for domestic uses. The world's greatest gasoline wells are located in the Turner Valley.

This field is within easy reach of Calgary and offers a fine auto trip.

Oil Refinery. The Imperial Oil Limited has erected, at a cost of \$4,000,000, a very large modern oil refinery in Calgary, situated in the Ogden district. This plant is worthy of a visit.

Spillers Canadian Milling Co., Ltd.—The imposing daylight flour mill situated in East Calgary belonging to Spillers Canadian Milling Co., Ltd., commenced milling in September, 1927, and is now in full operation. The officials of this plant, the most modern flour mill in Canada, welcome visitors who will find great interest in seeing what modern machinery and skill in operation is capable of doing in the way of producing the finest possible flour. The output of the plant is five thousand 98-lb. sacks per 24 hours.

Municipal Airport. The City of Calgary maintains and operates a modern airport situated within the City limits and distant less than 800 yards from the street car service. The field contains approximately 200 acres, has graded runways, the longest of which, being in the direction of the prevailing wind, viz., North-Westerly and South-Easterly, is 3,000 feet in length. The port is fully equipped for night flying, has boundary, approach, obstruction, ceiling, building and field lights. There are four 3-kilowatt Sperry units fitted with Fresnel lense as well as secondary floodlights which are operated by remote control. The following schedule of fees, subject to change without notice, are in operation at the port:

SCHEDULE OF FEES

	Air- Light Craft Up to 1000 lbs. Load	Air- Medium Craft 1000 to 3000 lbs. Load	Air- Heavy Craft Over 3000 lbs. Load
Landing Fee, including storage or ground for first day or part thereof -----	\$ 1.00	\$ 2.00	\$ 3.00
Subsequent Storage fees per aircraft per day or fraction thereof, including landing privileges: Ground space ---	1.00	2.00	3.00
Dead Storage, ground space only, per day -----	.50	1.00	2.00
Monthly fees per aircraft, including landing fees -----	15.00	22.50	30.00
Fee per passenger carried--	.15	----	----

Hangar accommodation to be secured by arrangement with private lessees on the field.

Dominion of Canada Air Regulations 1920 as amended to be strictly observed.

Airport Supervisor—R. Mackay.

Office—City Hall.

Phone—M1151, Local 34.

CITY OF CALGARY

NAMING OF CALGARY

Calgary is named after the old home of Colonel Macleod in the Isle of Mull, Scotland, and was so named in the year 1876 when he was in charge of the North West Mounted Police fort established at the confluence of the Bow and Elbow Rivers. The word "Calgary" is of Gaelic origin and means "Clear Running Water."

LOCALITY AND ADVANTAGES

The City of Calgary is the business centre of the Province of Alberta, and the largest and most important city between Winnipeg and Vancouver. Its location on the C.P.R. main line and C.N.R. line in the foothills of the Rocky Mountains at the junction of the Bow and Elbow Rivers, is picturesque. By reason of its geographical situation, the abundant supply of pure water, the untold wealth of the surrounding country as yet only partially developed, and its cheap electric power, the City offers most desirable inducements for the establishment of manufacturing industries. An extract from "Townships of the North-West Territories" reads as follows:

"At the junction of the rivers (Bow and Elbow) on Section 14, is the town of Calgary, which will soon become one of the most important places in the Northwest. Its geographical position, picturesque site, proximity to the Rocky Mountains, access to wood and timber by way of both rivers, and its ample supply of excellent water all contribute to this end. C. E. LaRue, 1883."

At the time the above was written, Calgary had a population of less than 500. Present population, 85,000.

The business section and part of the residential district has spread over the valley which was the original townsite, and has expanded over the surrounding heights, from which views of the Rocky Mountains are obtainable. Calgary is approximately 840 miles west of Winnipeg, 620 miles east of Vancouver, 138 miles north of the boundary line between Canada and the United States of America, and 85 miles from Banff, "The Playground of Canada."

SURROUNDING COUNTRY AND RESOURCES

Tributary to Calgary is a most prosperous agricultural, beef raising and ranching district, in area some thousands of square miles, and by virtue of the nutritious and abundant grasses growing throughout the surrounding territory, cattle raised in this locality are of the best; and by reason of its favor-

able climate and fertility of the soil, grain and vegetables produced in this district are excellent. (See index "Exhibition").

IRRIGATION AND FARMING

Calgary is the headquarters of one of the largest irrigation projects in the world. Water for irrigating the fertile belt stretching from Calgary, north, east and south, is obtained from the Bow River. The head-gates of the main canal are located inside the Eastern City limits.

In the agricultural world, Calgary, being the centre of thousands of acres of both irrigated and non-irrigated lands, famous for spring, fall and winter grains of all kinds, vegetables and wild and cultivated grasses, is highly attractive to prospective settlers and investors. As a direct result of this location and the productivity of the surrounding areas, a "Grain" or "Stock" Exchange and a large stockyard and packing plant were established some years ago. Calgary's importance as a grain centre has been officially recognized by the Government of the Dominion of Canada and the said Government has built a terminal elevator in this City. (See index "Elevator").

RAILWAYS AND MARKETS

With two transcontinental railways operating into the City, and other branch lines projected, Calgary offers the wholesaler and the retailer great facilities for trade throughout the whole of the Dominion. This, coupled with an ideal location in the heart of a rapidly and ever-growing market, in the centre of tributary lands containing bountiful supplies of raw materials, places Calgary conspicuously before the manufacturer.

MINERALS, ETC.

Untold mineral wealth underlies the soil waiting for time and invested capital ere an idea can be conceived as to the intrinsic value and the benefits which will accrue to Calgary, Canada, and the British Empire therefrom. Chief among the minerals and other products of the lower stratas of the earth, found in the Calgary district are iron, lead, coal (bituminous, lignite, anthracite and coking), silicate sandstone, brick clay and shale, pottery clay, fire clay, etc. Oil of a high grade was, on October 7th, 1913, struck at a depth of 1,562 feet in a well on Section 6, Township 20, Range 2, West of the 5th Meridian, and now known as "Discovery Well," and since, in fairly good quantities in several other wells. Natural gas is also obtained from these wells, and when treated yields gasoline in payable quantities. The gas (after the gasoline has been extracted) is

now "piped" to Calgary gas consumers. The field is now in active process of development, each year seeing more wells being sunk and new areas proven.

INDUSTRIES

The chief industries located in Calgary and district are: Ranching, farming, meat packing and meat products, oil refinery, manufacture of flour, biscuits, breakfast foods, breweries, temperance drinks, cement and cement blocks, rough and finished lumber, wood-working plants, sash and door mills, beds and mattresses, saddlery and leather goods, show cases, tents, confectionery, cigars, soap and similar commodities, ironworks, machine shops and welding, C.P.R. repair shops for western division, liquid air plant, brickyards, bakeries, dairies and butter, etc.; stockyards, tannery, headquarters for coal companies, headquarters in province for insurance companies, horticultural, box factory, Ford assembly plant, automobile repair shops.

HOSPITALS

The General Hospital, instituted October, 1890, incorporated November, 1890; present hospital opened February 1st, 1910, with approximately 200 beds, present capacity. Prior to April, 1919, it was under the control of a private Board, but it is now administered by the City, together with hospitals for the following: Smallpox (12 beds), Isolation (75 beds).

There are in addition to those above mentioned a number of privately owned hospitals and nursing homes, the chief of which is the Holy Cross Hospital.

Finances are obtained from patients' fees, City taxation and certain Provincial Government grants.

The Government grants for 1929 to the Hospitals Department, City of Calgary, totalled \$40,031.50.

For rates, etc., see index "Hospitals."

The Dominion Government completed and opened in the year 1920 a large modern sanatorium for the treatment of tubercular cases.

In July, 1925, the Alberta Provincial Government assumed full control of this institution, which is situated within a short distance of the Bowness Line of the Municipal Street Railway, at Keith, 7 miles west of the City. It was originally designed to care for returned soldiers, but has so developed that civilians are now also treated.

LIBRARY

Those of our citizens possessing literary tastes may, on becoming members of the Calgary Public Library, have access to various works of literature by the world's best authors. (See index "Library").

JUVENILE COURT, &c.

The "Children's Aid Dept.," previously financed largely by the City and controlled by the Provincial Government, is now a department of the City, and as such is administered by the City Commissioners. In its legal operations the Juvenile Court is under the Attorney-General's Department. All cases are first submitted to the Children's Aid Department and sittings of the court arranged by them. The Superintendent is clerk of the court. For particulars re "Juvenile Court", see index.

MUNICIPAL OWNERSHIP

Calgary is essentially a City owned and operated for its citizens' benefit through their elected representatives, and owing to this fact its inhabitants enjoy an excellent service from the various municipal undertakings. Commencing in the year 1899, the City purchased the existing Waterworks system. Since that time the Public Utilities of the City have been extended to include Electric Light and Power, and Street Railways systems.

Calgary has clean and well paved thoroughfares, beautiful residential districts, and business buildings, giving remarkable evidence of substantial growth. Municipally-owned utilities—particulars of which may be found in this publication—educational buildings, school systems, and above all, a healthy climate.

BRIDGES

A modern reinforced concrete bridge spans the Bow River at Centre Street, Calgary, and bridges of similar construction cross the Elbow at Fourth Street West, and the Bow River at Ninth Street West.

METHOD OF CIVIC GOVERNMENT

The "Initiative, Referendum and Recall" is in operation in Calgary. By this means legislation may be initiated by the ratepayers, a referendum demanded on any public question or policy and elected officials recalled. To invoke these powers it is necessary to obtain the signature of qualified voters, equal in number to those cast at the last election for Mayor in the following percentages: For "Initiative" or "Referendum," 10 per cent.; for "Recall," 25 per cent.

The government of the City is carried on under powers granted by the Legislative Assembly of the North West Territories, and amendments thereto from said body, and later from the Provincial Legislature of Alberta. The Council is composed of a Mayor and 12 Aldermen. Up to the end of the year 1923 the Mayor was elected annually. At the Civic Elections held in December, 1923, the electors carried

a plebiscite to provide for the election of Mayor for a term of two years, said provision to become effective January 1st, 1924.

CONTINUITY OF COUNCIL, ETC.

In order that some members of each year's Council may be on intimate terms with the City's business, the Aldermen are now elected from the City at large for a two-year term of office, six Aldermen retiring, in the ordinary course of events, on December 31st of each year. The transition from a one to a two-year term of office was accomplished in December, 1918.

A Commissioner is elected on a vote of the electorate of the City, to hold office for a term of two years. The Public and Separate School Trustees are also elected annually for a term of two years from a vote of the entire City, the number of members to be elected each year being determined by vacancies on the respective Boards. The number of members composing the Public School Board is 7 and the Separate School Board 5.

QUALIFICATION FOR MAYOR, ETC.

The Mayor is the chief magistrate of the City. Persons eligible for election as Mayor, Commissioner, Alderman, Public or Separate School Trustee must be British subjects, qualified electors of the City, male or female, of the full age of 21 years, and who are not disqualified under the ordinances incorporating the City of Calgary.

ELECTIONS, NOMINATIONS AND VOTING

All elected officials of the City of Calgary are elected by the system of "Proportional Representation with the Single Transferable Vote," generally known as "The Hare System," which was finally adopted and put into operation by the City in the year 1917.

Nominations up to and including the year 1928 were held annually on the first Monday in December, and the election on the second Wednesday following. In the year 1929, nominations were held on the second Monday in November and elections on the second Wednesday following. Commencing with the year 1930 nominations will be held on the first Monday in November and elections on the third Wednesday following. The hours of polling are from 9 a.m. to 8 p.m. and "the persons qualified to vote in the above connection are those persons, male or female, 21 years of age or over, whose names appear on last revised assessment roll; or resident British subjects or tenants, male or female, 21 years of age or over, who have resided continuously in the City for at least 6 months prior to the 1st of June in the year the voters' list is being prepared, and who register dur-

ing the month of June or July in each year, their names at the City Clerks' Office, or who are qualified electors and subscribe to the necessary affidavit at the Special Polling Booth at the City Hall on Election day." (Two weeks in September are also set apart as a final period for Registration and Revision of the Voters' List). If registered British subjects or registered tenants vote at an election their names are added to the Voters' List for the year following such election. Qualifications for voting on by-laws same as above, but owners of real property only, whose names appear on the last Revised Assessment Roll assessed for real property to the value of \$100.00 or more.

COUNCIL'S DUTIES

The Council as a whole is the legislative body and carries on the legislative work through standing committees in the usual way.

COMMISSIONERS' DUTIES

The Board of Commissioners, consisting of the Mayor and one other Commissioner, is the executive body and as such regulates and supervises expenditures, directs and controls departments, nominates all heads of departments, Comptroller excepted, prepares specifications and estimates, advertises for tenders for work, materials and supplies required, inspects work being carried on or in progress within the City, administers the affairs of the City, except schools.

The Aldermen receive no remuneration for their services, the electorate refusing to authorize same, but the Mayor and Commissioner receive a salary of \$5,000 and \$4,800 per annum respectively for the year 1930.

Calgary's form of municipal government (Commission with Council) has proven in this City of large municipally-owned undertakings to be a safe and sane method of administering the community's affairs.

The Commissioners cannot legally act on important questions, or incur expenditures over \$500.00 before submitting the facts, policies and recommendations to and receiving the Councils' instructions.

The Commission form of government had its inception, insofar as Calgary is concerned, in 1907, the Commission then consisting of the Mayor, City Clerk, and City Engineer, said Board being appointed by the City Council. After a brief trial this Board was found to be unsatisfactory, as no matter what good policies the Board might institute or desire to initiate, at least two of the members were not in a position to uphold their policies against possible opposition.

The afore-described Board was supplanted in 1908 by a Commission consisting of the Mayor (chairman), and two Commissioners, the latter two appointed by the Council. Our citizens deemed it their privilege to say as to whom should administer civic affairs and the Council adopted the policy of holding a plebiscite, the two names submitted for the office of Commissioner and receiving the highest number of votes to be appointed by the Council. This method in 1913 gave way to straight election of Commissioners.

The electors in December, 1918, declared by a large majority to retain the present form of Municipal Government, and in December, 1921, to be in favor of reducing the Commissioners to two, one of whom is the Mayor. This change became effective on January 1st, 1923.

ASSESSMENT, TAXES, BOARD OF REVISION

General Assessment Rolls are compiled in the fall of each year for use after confirmation by the Board of Revision for taxation purposes, etc., during the following year. The Assessment Roll is completed and notices mailed on October 31st preceding the year in which such roll is to be used.

The Board of Revision consists of three members appointed by by-law of the City Council and sits each year to hear appeals against assessment or non-assessment and to revise and confirm the assessment rolls. Appeals against assessment or non-assessment must be in the hands of the City Assessor at least five days before the first meeting of the Board of Revision which cannot be held until 30 days after the mailing of assessment notices.

In 1922 the City secured Charter Provision whereby the Council may by by-law provide that the valuation for any year shall so stand for two years. Any person in each year shall have the right to appeal from the Assessor's valuation to the Court of Revision and to the Judge of the District Court in the manner provided for in the City Charter, but no person shall be entitled to succeed upon appeal in the second or succeeding year unless he can prove to the satisfaction of the Court of Revision or the Judge of the District Court that his property has deteriorated in value since the first or preceding year; provided that there shall be no restriction of appeal or the right to succeed upon appeal in the case of any person the valuation of whose property has been revised, altered, amended or increased, nor in the case of any property where there has been a change of ownership and the assessed owner whose name appears on the roll in the second or succeeding year had no right of appeal in the first or preceding year.

On purchasing property you should appear at the Assessor's office and present for his information the agreement for sale or title. If a non-resident, write the Assessor.

REAL PROPERTY (General Tax)

After the assessment roll for real property is finally revised and confirmed, usually in December of each year, and the estimated nett expenditure to be raised by the general tax is fixed by Council, the tax (mill rate) is struck as follows:

Estimated expenditure (less utilities and revenues from sources other than the general tax) $\times 1,000 \div$ real property assessment (including special franchise and excluding business tax assessment, equals No. of mills constituting the tax rate). (A mill is \$.001.

Each dollar assessed and taxed on the "Real Property" tax rate must pay the mill rate as above determined, except on parcels of 8 acres and over, situated in the outer area, when a tax rate of 20 mills is levied.

The Council by by-law fixes the dates up to which certain penalties on General and Special Taxes shall be imposed. For 1930 it is proposed that taxes paid on or before June 20th shall be free from any penalty. From June 21st the following penalties shall be imposed:—

June 21st to July 31st	-----4 per cent.
August 1st to September 30th	-----5 per cent.
October 1st to December 31st	-----6 per cent.
January 1st, 1931, and until paid	-----2-3rds of
1 per cent. monthly on the accumulated amount of taxes and penalty.	

Advance payments on account of taxes for the year 1930 will be accepted after January 2nd, 1930, and interest at the rate of 5 per cent. per annum up to June 1st, 1930, will be allowed on all such payments made before May 1st.

Tax notices, giving details of the mill rate, general and special taxes due, arrears, penalties, etc., are then mailed. Taxes are due on the first legal day of the year current with their demand.

"Special taxes" are invariably "Local Improvement" and "Frontage" taxes, such as for sewers, paving, sidewalks, boulevards, curb and gutter, grading, gravelling, water mains, the cost of which is chiefly borne by the properties fronting or the district benefitted. The Provincial Tax is levied by the Province of Alberta on land value only.

BUSINESS ASSESSMENT AND TAX

The Business tax first became operative in 1916 and the provisions governing have been amended as necessary from time to time. All businesses, trades,

professions, etc., must be assessed each year for a sum equal to the full annual rental of their business premises, whether land or buildings or both, provided, however, that if such assessment is not equal to those of surrounding similar places and businesses, the assessment may be raised or lowered to make all assessments affected equitable. Assessment notices are mailed December 31st. After the Business tax roll has been revised and confirmed and the Council has set the rate and discount periods, tax notices demanding payment of the Business tax, giving particulars of the amount due, discounts, etc., are mailed. A discount of 5 per cent. is allowed if paid before March 30th. Distress warrants may be issued if taxes are unpaid by April 15th. The tax rate on all business is 8 per cent. of assessed rental value. As license fees are now based on the cost of supervision by the City, no rebate is given off Business tax on account of any license fee paid to the City.

TAX RECOVERY

The existing laws concerning unpaid taxes are briefly as follows:

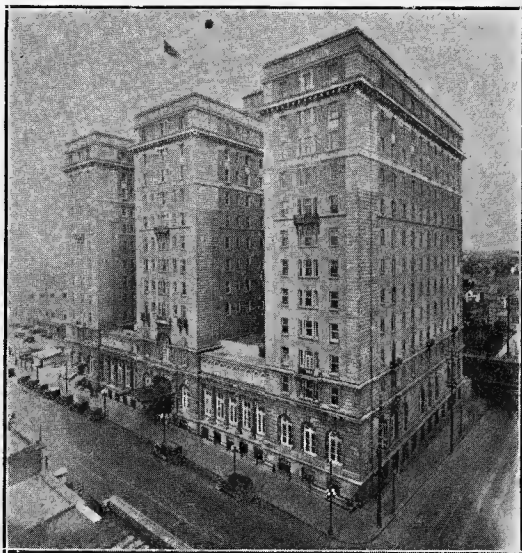

1. Not later than November 14th of the year following the tax levy, if taxes are unpaid the City must file in the Land Titles Office a caveat against all properties so in arrears.
2. If any parcel of land is not redeemed before the 15th day of December in the calendar year next following the year in which caveat has been filed, the City applies for, and the Registrar of Land Titles issues, a new certificate of title in the name of the City.
3. After securing title the City must, within one year, offer for sale at public auction the land or lands for which title was so obtained.
4. If the property is not sold at such auction, the title remains in the name of the City, but must be sold at the earliest possible opportunity by private sale.

TAX EXEMPTIONS

The Dominion and Provincial Governments, Public and Separate School Boards, Incorporated Colleges (on lands and buildings used for school purposes), Church buildings and Church lands (up to one-half acre); are all exempt from General taxes but are liable for Local Improvement taxes.

VOTERS' LIST

The fact that you have paid taxes does not qualify you for a vote. See that your name appears on the Voters' List to be seen in the City Clerk's office. This matter should be attended to not later than the last legal day of July in any year. An elector

Palliser Hotel

is entitled to vote once only at any election on the same question, and must vote at the booth noted on the Voters' List for each elector. Only qualified electors whose addresses are given as in Calgary are entered on the Voters' List. A qualified non-resident voter who is in the City on election day and wishes to vote must apply in person at the Assessor's office for a certificate.

MUNICIPALLY-OWNED INDUSTRIAL SITES

Calgary offers to manufacturers industrial sites owned by the Corporation at the cost price. These are located in various parts of the City and the first were purchased in 1911 to provide for industrial development.

"Manchester," within the southern limits of the City, situated on the Calgary-Lethbridge branch of the C.P.R., is offered manufacturers desirous of locating in Calgary, on the following terms:—

Street cars, sewer, water and electric light and power are extended to and in use in "Manchester." This property is approximately two and one-half miles from the Post Office. Applications for sites should be addressed to the City Clerk.

1. Cost price, \$1,200.00 per acre; one-third cash, the balance in equal instalments divided over a term agreeable to the purchaser, up to six years, with interest at 6 per cent., payable annually.

2. (a) The purchaser or purchasers must agree that all buildings erected on land bought by them shall conform to the requirements of the second-class fire limits of the City.

2. (b) To use the land for 10 years from the date of purchase for manufacturing purposes only, and after 10 years for the same purpose until otherwise allowed by by-law of the City of Calgary.

2. (c) To begin building operations on the land purchased within six months from the date of purchase and to complete the buildings within a reasonable time, and if the purchaser or purchasers fail to carry out this provision the agreement shall be void and the land revert to the City.

2. (d) That he or they shall not assign or sublet without the consent of the Council of the City of Calgary.

2. (e) To pay the City of Calgary its proportionate share of the rental of the main spur or spurs constructed to serve the subdivision.

Two miles east of the City limits and about five miles from the Post Office lie other industrial sites. This property is served by the Canadian National Railroads.

The City also owns several blocks of land in the subdivision known as Calgary Junction.

Another site within easy reach lies about two miles northeast of the Post Office. The Calgary-Edmonton branch of the C.P.R. runs through this property.

The City has power to exempt from taxation buildings, improvements, machinery and stock being used on said land subject to a by-law providing for such limited assessments and exemption being ratified by the people as in the case of a money by-law.

The above clause does not mean that the industrial concerns are exempt from Local Improvement taxation.

If the aforesaid lands, buildings, stock or improvements cease to be used or occupied for the purposes aforementioned, such land, etc., so ceasing to be used or occupied shall be liable to taxation in the usual manner.

Further information in respect to the above will be gladly furnished by the City Clerk.

CITY HALL

Calgary's City Hall is situated at the corner of Seventh Avenue and Second Street East. The site was obtained in the year 1885.

Construction work on the present building was begun in the year 1907.

The building is a solid sandstone structure, with reinforced concrete floors, fireproof construction, and cost in the neighborhood of \$300,000.00. The frontage is 112 feet on Second Street East; depth, 128 feet on Seventh Avenue, and a floor space of 33,280 square feet. The height of the tower from the sidewalk is 100 feet.

Most of the materials for the building were obtained in the neighborhood of the municipality. It was formally opened for business in the month of January, of the year 1911. The City Hall had not sufficient space to accommodate all the City's executive offices, and the interior has been remodelled in part to try and solve the difficulty.

POLICE HEADQUARTERS .

As a result of the rapid growth and development of Calgary, and the corresponding increased volume of civic business, it has been necessary to erect in close proximity to the City Hall, a modern fireproof construction, consisting of reinforced concrete framework and floors, and brick filling with stone trimmings, to be used as a Police Headquarters, and for other civic departments. This building was completed on August 31st, 1914.

DOMINION GOVERNMENT ELEVATOR

Calgary, Alberta

Office—East Calgary.

Manager—S. C. Brown.

The Canadian Government Elevator at Calgary is a reinforced concrete terminal elevator of 2,500,000

bushel capacity. This interior terminal elevator, together with similar elevators of 3,500,000 bushels capacity each at Saskatoon and Moose Jaw, Sask., were constructed by the Board of Grain Commissioners for Canada to operate in conjunction with the Board's Lake Terminal Elevator at Port Arthur, Ont., and with the Board's Ocean Terminals at Vancouver, B.C. The purpose of the Calgary elevator is to provide storage and cleaning facilities for grain grown in the Province of Alberta, and to act as a reservoir for shipments to the East via the Great Lakes, or more especially for shipments westward to Vancouver, where it may enter the trade routes of the Pacific, or of the Atlantic via the Panama Canal.

The Calgary elevator will be a great boon to the farmer during a period of congestion in transportation and, possessing as it does the most up-to-date facilities for treating damaged grain, will prevent grain going out of condition on account of excess moisture while in transit.

The plant consists of the following units, all of reinforced concrete construction and absolutely fire-proof:—

(1) The work house is known as a 13-leg house with storing capacity of 500,000 bushels, capable of handling 90 cars in and 90 cars out per day.

(2) A storage house of 56 circular bins, 23 feet 2 inches in diameter, and 92 feet high, with a capacity including the interspace bins of 2,000,000 bushels.

(3) Two drying plants fitted with the most modern type of Morris drier with a combined drying capacity of 40,000 bushels per day of 24 hours. The heating factor in these plants is two 100 h.p. marine type boilers and one 200 h.p. return tubular boiler located in a special building.

The elevator is electrically driven, power being supplied by the City of Calgary at 12,000 volts and reduced in the elevator sub-station to 550 volts for power purposes and 110 volts for lighting. A separate motor drives each machine, 53 motors being required to run the plant.

A Cyclone Dust Collector system is employed to remove the dust and floor sweepings, and a compressed air system for blowing dust from motors is also part of the elevator equipment.

The elevator is especially well equipped for cleaning grain, its cleaning equipment consisting of 10 receiving separators, each with a capacity of 1,000 bushels per hour, or a small carload; two flax separators, two wheat and oat separators, and a screening separator. These machines provide for all ordinary separations as well as for cleaning seed grain.

A screening grinder of large capacity is installed for grinding elevator screenings for stock feed purposes. All grain received and loaded is weighed in Hopper scales located in the warehouse cupola; six in number, are installed, each with a capacity of 2,000 bushels, or 120,000 pounds.

The elevator is connected by a direct spur track to the C.P.R. and Canadian National Railways by transfer connections. Ample trackage is provided on the Government property for unloading and sorting cars. The Government own trackage which is approximately three miles, and has accommodation for 350 cars.

The total cost of the Calgary elevator was approximately One Million Dollars.

HYDRO-ELECTRIC POWER

Managing Director: R. B. Baxter.

315 Herald Building.

Calgary is supplied with the bulk of its electric power from the Calgary Power Company's two hydro-electric plants, situated 50 and 52 miles respectively, at Seebe, on the Bow River, west of Calgary.

No. 1 plant was completed and delivering power in 1911. The dam is a solid concrete structure across the Bow River, the foundation resting on rock and shale. Water is led to the power house through steel penstocks of 12 feet in diameter, the "head" of water being 70 feet. Generators of a total capacity of 19,500 h.p. are installed in the power house, the voltage of generators being 12,000; this is stepped up to 55,000 volts by transformers for transmitting to the City of Calgary over three separate high tension lines.

In addition to supplying the City of Calgary and the Canada Cement Company with power, the Company also supplies Morley, Cocbrane, Okotoks, High River and other towns over an extensive rural distribution system.

Owing to low water conditions of the Bow River during the winter months, the Calgary Power Company soon found it necessary to build a second plant to enable them to handle the rapidly increasing demands for power. The site chosen for the second plant is known as Kananaskis Falls, and construction work was started on this site November, 1912. The entire work was completed and power being delivered both to the City of Calgary and to the large cement mill at Exsbaw in January, 1915. Generators of a total capacity of 11,600 h.p. are installed at No. 2 powerhouse, the generators being driven by turbines working under a head of 70 feet. The dam consists of a solid concrete structure 600 feet in length and is capable of discharging over

40,000 second feet of water should the occasion arise. The Company have also built a dam across the Devil's Canyon at Lake Minnewanka, by which means the old level of the lake has been raised 12 feet. The large volume of water stored during the summer months is released in winter, the natural flow of the water being increased considerably at this low water period.

The extension of the Company's generating facilities having at this time become imperative by reason of the rapid increase in load, the Ghost River hydro-electric project was undertaken, actual work commencing in September, 1928. The Ghost development is located on the Bow River just below the confluence of the Ghost and Bow Rivers, about 28 miles west of Calgary. The dam across the valley of the Bow is approximately 5,000 feet in length, the river section of 900 ft. being of mass concrete and the flanks being of hydraulic and semi-hydraulic earth-filled dykes. The height of the dam in the river is 108 ft. The artificial lake formed is about eight miles long and three-quarters of a mile wide, representing approximately 5,800,000 kilowatt hours of storage. The first generator was placed in operation at the Ghost plant in October, 1929.

The capital expenditure to date is some \$4,300,000.

An exhaustive survey has been completed by the Calgary Power Co., Ltd., of other power sites in the Bow Valley, in view of the early necessity of still further augmenting the power supply.

NATURAL GAS

Office: 215 Sixth Avenue West, Calgary

Natural Gas was first discovered in commercial quantities in the Bow Island field in 1908.

The Canadian Western Natural Gas, Light, Heat and Power Company, Limited, was formed for the purpose of supplying Calgary, Lethbridge and the intervening towns with natural gas. On April 11th, 1912, work was commenced on a 16-inch steel trunk line between Bow Island and Calgary, a distance of approximately 171 miles, and was completed on July 17th, 1912; thus establishing what is believed to be a record in the Natural Gas history. The cost of putting this line into service was over two million dollars.

On July 23rd, 1912, nature's ideal fuel from the Bow Island field was first delivered to the householders of Calgary.

Much development work has since been carried out by the Company. Drilling operations have been carried on in the Chin Coulee field and the Foremost field. In the latter field six wells have been successfully drilled, the total daily production from same now being upwards of 63,000,000 cubic feet

per day. The production of this field necessitated the construction of 33 miles of 10-inch pipe to connect this field with the main trunk line.

To further augment the Company's gas supply, arrangements have been made with the Royalite Oil Company to supply gas from the Turner Valley field. Three pipe lines have been constructed from this field to connect with the Company's system and at the present time up to 60,000,000 cubic feet per day is being supplied from Turner Valley.

The Company supply natural gas at a rate of 37 cents per 1,000 cubic feet with a discount of 4 cents per 1,000 cubic feet when the bill is paid within ten days from the date of same. There is also a minimum charge of \$1.00 per month to users of small quantities of gas. The Company now serves 21,000 residences and 350 large buildings.

HISTORICAL

Calgary was so named in 1876 by Col. Macleod, then commanding the Mounted Police detachment at this point. He named it after his old home, Calgary, a small estate on the Isle of Mull, Scotland. "Calgary" is said to mean "clear running water."

1875—The first detachment of the Mounted Police arrived under command of Captain Brishois, who built Fort Brishois near the confluence of the Bow and Elbow Rivers. This was the first white settlement at this point, which continued to be known by the outside settlers as "The Elbow." The I. G. Baker Co., of Montana, and the Hudson's Bay Co. shortly afterwards opened the first trading post.

1876—Col. Macleod took command of the post and renamed it Fort Calgary. The word came later to be spelt with one "r," Calgary, which is the correct Scottish spelling.

1881—Calgary consisted of the Hudson's Bay Store, I. G. Baker's store, Mounted Police Barracks and the house of the commanding officer.

1883—First train from Winnipeg reached Calgary, 28th August. Dominion Land Office opened.

1884—Incorporated as "Town of Calgary" November 17th, 1884. Area approximately 1,600 acres. Population, 500. Sections 14, 15 and 16, South of the Bow River, within the Town limits. First Council meeting, December 4th, 1884, in Royton Hall; Mayor, George Murdock; Councillors, S. J. Clarke, N. J. Lindsay, J. H. Milward, S. J. Hogg. Railway time adopted. Design of Corporation Seal completed and adopted. Government petitioned by Town for power to issue licenses, proceeds to the property of municipality.

1885—Calgary asks for arms for the protection of the City. Site for town hall, market place and fire hall donated. Combined town hall, police court and police cells erected; cost, \$1,694.00. Fire brigade, hook and ladder company organized. Seal received and adopted. All by-laws repealed and passed under seal. Government asked for 50 acres of land for cemetery. Sir Hector Langevin petitioned re bridge across Bow River (hence name "Langevin Bridge"). Public Market established. Wells sunk to provide water for fire protection. Night watchman appointed. Cemetery selected—located on Section 18, Township 24, Range 1, West of 5th. Holloway chemical engine purchased. Land for park granted to the Town.

1886—First train from Montreal to the Pacific Coast passed through Calgary with Sir John and Lady Macdonald as passengers.

Fire limits arranged. Steps taken for stockyards site in Section 11. Fire brigade organized.

1887—Fire hall built. Council offers to lease land to C.P.R. for 21 years for stockyards. Water tanks, 20,000 gallons capacity, constructed. Propose to pay Mr. Prince \$1,500.00 for purpose of building bridge across Bow River at west end of town.

1888—Government bridge across Bow River at Dewdney Street completed. Bids asked for construction of waterworks and supplying town with water and fire hydrants.

1889—Visit of Lieutenant-Governor. Government memorialized re islands in Bow River for parks purposes.

1890—Visit of H.R.H. Duke of Connaught, ex-Governor-General of Canada. Official celebration on the occasion of first sod turned on Calgary and Edmonton Railway. Three islands in the Bow River opposite the Barracks acquired for parks purposes. 1891—Calgary and Edmonton branch of the C.P.R. started operation.

1892—\$3,000.00 invested by Town in boring for gas. Cable ferry across Bow River instituted.

1893—Charter for City of Calgary under preparation. Incorporated as the "City of Calgary" September 16th, 1893. Macleod Branch of C.P.R. started operation.

1894—Consul appointed for Norway and Sweden.

1897—Klondyke rush started. Bridge over Elbow erected—cost \$1,248.00.

1898—C.P.R. located repair shops, etc., at Calgary; City gave a bonus of \$25,000.00. Council goes on record as favoring municipally-owned waterworks. Pound established. The Governor-General visits Calgary.

1899—General Hospital incorporated. Steps taken to purchase waterworks from Calgary Gas & W. W. Co.

1900—Calgary Gas & W. W. Co.'s water system purchased.

1901—Limits extended to include Victoria Park. City assumes control of Victoria Park. Public receptions to Albertans returning from Boer War. Visit of Lieutenant-Governor and Legislative Assembly. City Clerk instructed to secure seal for city.

1902—Considered advisable to retain sufficient land for future stockyards.

1903—City limits extended to include a small portion in the N.E. quarter of Section 11-24-1—West of the 5th M.

1904—Decided to number streets and avenues and dispose of names. C.P.R. irrigation works started east of Calgary. Foundation stone of Church of the Redeemer laid.

1905—Engineer instructed to prepare plans of Electric Plant. Natural gas franchise granted. Bridge over Elbow at Second Street East completed—cost \$7,678.79. By-law 619, establishing Electric Light Plant, effective July 31st, passed.

1906—Construction of Electric Railway considered. Committee appointed to consider establishment of Public Library. City limits extended to include a small portion of N.W. quarter of Section 11-24-1, West of the 5th Meridian.

1907—City limits extended to include Sections, part N. half 4 and part N.W. quarter 2, N. half 5, all 8-9-10-11. Sections 12 and 13, S. and W. of Bow River, 15 and 16 N. of Bow River, all 17, part in Section 18 and S. half of Sections 20-21-22 and 23. Primitive commission form of government introduced. Subways to be built at Elbow River, First Street West, and subway at Second Street East to be altered.

City Limits extended. Decided to build Municipal Street Railway. Decided to petition Legislature for power to elect board of control or commissioners.

Gravity water system built.

1908—Municipal Railway started construction. St. George's Island bridge built. Mr. Andrew Carnegie offers \$50,000.00 to establish public library.

1909—Commission form of civic government introduced. Calgary Public Library Board start the erection of the first public library in Alberta. Bow River tunnelled for water mains. Calgary Municipal Street Railway service commenced operation July 5th, 1909.

1910—City limits extended to include Tp. 24, R. 1. W. 5. Hydro-electric power for Calgary. Industrial

sites purchased. Plans for entrance of G.T.P. submitted for approval. Riley Park donated to the City. Sir Wilfrid Laurier visits Calgary. C.N.R. submits tentative plans for entrance into City.

1911—G.T.P. Ry. and C.N. Ry. submit revised plans for entrance into Calgary. C.P.R. Co. and the Hudson's Bay Co. start erection of large buildings. Present City Hall opened for business. New fire headquarters built. City limits extended to include N. half of Section 34 and all Sec. 25 and 36, Twp. 23, R. 1, West of the 5th Meridian, and Sec. 33 and 28, Twp. 23, R. 29, West of the 4th Meridian.

1912—Visit of T.R.H. the Duke and Duchess of Connaught and Princess Patricia. C.P.R. car shops—greatest in Western Canada—located in Calgary. Municipal paving plant installed. Natural gas piped to the city from Bow Island. C.N.R. submit plans for station. Library opened to public.

1913—Wards abolished insofar as elections for Aldermen concerned. Two-year term for Aldermen instituted. Agreement authorized with Hospital Board bringing the control of General Hospitals in Calgary under the jurisdiction of the "Calgary Hospitals Board." G.T.P. steel laid in city limits, March 27. C.N.R. steel laid in city limits, April 21.

"Made in Calgary Show" first held. Union stockyards proposed. Oil discovered in Calgary districts, October 7, 1913, at the depth of 1,562 ft. \$350,000.00 authorized for purchase of site and erection of abattoirs, etc. (For further particulars see Statistics). Construction commenced in June of Police Building.

1914—G.T.P. first passenger train arrived, February 26, 1914. Visit of Duke and Duchess of Connaught and Princess Patricia curtailed by reason of war outbreak. Police Building completed, Aug. 31st.

Dingman "Discovery Well," producing 25 barrels of oil per day; bi-weekly shipments of high-grade oil, nearly pure gasoline. Monument to South African Veterans unveiled.

Concrete and Steel Bridge By-laws passed. Purchase of Alberta Stockyards rejected by ratepayers Feb. 23: First regular passenger train arrives over C.N.R., May: 1,000 feet oil in Dingman Well. C.P.R. Hotel "Palliser" opened.

All Church property exempted from taxation.

Herald Building completed.

International Irrigation Congress held at Calgary. Delegates attend from all quarters of the globe.

Calgary mobilizes 4,500 for Empire's defence.

1915—Governor-General and later General Jessard inspect large number of troops recruited in Calgary district. Mission Bridge, municipally built, opened in August. Prohibition Liquor Act carried in Calgary .

and Alberta by a large majority in July. \$375,000.00 reinforced concrete bridge, Centre Street, started construction by City Engineer; (grades commenced, piers, abutments, and north arch and retaining wall nearly completed). Charter amendment obtained provided for Business Tax on Rental Basis to be effective in 1916. Voting franchise extended to include all British Subjects 21 years of age or over, resident in the City six months prior to June 1st of each year. Daylight saving scheme approved. Medical inspection of schools inaugurated. Gas Company sued by City to ascertain the extent of their franchise; City wins first trial. Municipal Golf Course opened. Australian Cadets visit Calgary.

1916—Reinforced concrete bridge spanning the Bow River at Centre Street, and costing \$375,000.00, completed.

March—Armories Building to be located in Mewata Park.

Sale of spirituous and fermented liquors containing more than 2½ per cent. alcohol forbidden from 21st July, 1916.

Sir Robert Borden, Canadian Premier, visits Calgary, December 18th, in connection with prosecution of the war.

1917—First street car passed over the new Centre Street Bridge, Jan. 7th.

Armories Building construction commenced.

Dec. 1st: Duke of Devonshire visits Calgary.

Dec.: Civic Elections first conducted under proportional representation.

1918—Nov. 11, Armistice Day. Armories Building completed.

Board of Assessment Commissioners supplants Court of Revision.

Soldiers' homes exempted from taxation for 1918.

1919—April 29th: Aeroplane first used in Calgary for commercial purposes; aerodrome built at Bowness Park. Prince of Wales entertained in City.

Duke of Devonshire (Governor-General) visits City. Hospitals come under direct control of civic authorities.

By-laws for Louise Bridge, Sewer Disposal Plant, Waterworks Extensions and Hospital Additions passed.

Calgary citizens contribute \$5,200,000.00 for Victory Loan.

1920—Hillhurst Bridge construction commenced.

Airplane Cross-Canada flight touched Calgary.

Gas plebiscite, re increased rates, defeated.

Tuberculin Testing of Dairy Cattle commenced.

Children's Aid Dept. comes under control of City Council and Commissioners.

Importation of Liquor prohibited by referendum.

1921—Group Life Insurance for civic employees instituted.

Institute of Technology and Art Building commenced.

July 18th: Calgary returns two Labor, two Independent and one Liberal members to the Provincial Parliament.

Dec. 6th: Calgary returns one Labor and one Progressive to Dominion Parliament.

Gas rates increased to 53c gross by Board of Public Utilities.

April: Duke of Devonshire (Governor-General) and Duchess visit City.

Reduction in number of Commissioners authorized by plebiscite.

Grasshopper plague.

Service Tax levied; Utilities taxed 4 per cent.

Hillhurst reinforced concrete bridge opened.

Tuberculin Test applied to milch cows and cattle.

Turner Valley gas piped for Calgary supply.

1922—Service Tax defeated.

Imperial Oil Company commences construction of \$2,500,000.00 oil refinery.

Lord Byng (Governor-General) and Lady Byng visit City.

Cemetery addition acquired.

Institute of Technology building completed and opened unofficially.

Normal School moved to Institute of Technology building. Imperial Oil Ltd. Royalite No. 4 well produces 500 bbls. oil per day.

1923—Jan. 1st: Board of Commissioners reduced to Mayor and one other Commissioner.

Jan.: Institute of Technology officially opened.

Plebiscite approved making term for Mayor two years, commencing January 1st, 1924.

Ave. bridge across Elbow washed out. St. George's Island and Bowness Park submerged by 4 feet of water.

May 1st: Hudson's Bay Co. commence construction of addition on 8th Ave. and 1st St. W.

May 1st: Alexander Building on corner of 8th Ave. and 1st St. W. demolished to make room for addition to Hudson's Bay Building.

A Calgary Residence

DESCRIPTION OF CALGARY'S COAT OF ARMS

The upper third of the shield shows the Rockies — our pride and glory. The lower two-thirds bears the Red Cross of St. George, mounted by the Maple Leaf (Canadian Emblem) which again is inset by a Buffalo Bull, the former master of our great country. The supporters, a Horse and a Steer, represent our wealth.

The Crest shows the Royal Crown (a sign of loyalty), and a Sunburst. Below are the Rose, the Thistle and the Shamrock, declaring our ancestry. Calgary was founded in 1882, and in 1894 she received her City Charter. Our motto is "ONWARD," and the Union Jack and Canadian Ensign speak of the Imperial Empire.

The Seal of the City of Calgary is similar to the above design.

DESCRIPTION OF THE COAT OF ARMS OF THE PROVINCE OF ALBERTA

Azure in front of a Range
of Snow Mountains proper, a
Range of Hills Vert., in base
a Wheat Field surmounted by

a Prairie, both also proper, on
a Chief Argent a St. George's
Cross.

CITY ELECTRICAL ENGINEER

General Superintendent of Electric Light and Street Railway Departments—R. A. Brown.

Offices—Ground floor of City Hall.

Phones—M1151; Local 30, M3126.

Residence—1216 Prospect Avenue.

Phone—W1507.

Superintendent Electric Light Dept. and Wiring Inspector—R. Mackay.

Phone—M1151; Local 34.

Residence—718 Boulevard N.W.

Phone—L1618.

The Municipal Electric Plant originated by the passing of Bylaw No. 562; amount \$60,000.00; passed Dec. 23rd, 1904, which was amended by Bylaw No. 619, effective Sept. 20th, 1905.

The Electric Light and Power System cost approximately \$3,127,544.18, of which sum \$2,782,218.86 was derived from the sale of debentures (the majority having a lifetime of 30 years), the balance of \$345,325.82 being revenue contributions to capital.

Revenue is obtained from the following sources: Rates; conduit rentals; service charges and sundry.

The revenue takes care of all departmental charges including sinking fund and interest, operation, maintenance, depreciation, insurance reserve, repairs, 2 per cent. on capitalization for replacement and improvement purposes, and a 5 per cent. tax on the gross earnings, this latter payable to the general funds of the city.

Light Rates

For the first 300 K.W. hours, 5c per K.W. hour.

For the next 300 K.W. hours, 4c per K.W. hour.

All over 600 K.W. hours, 2c per K.W. hour.

Minimum charge 85c per K.W. of connected load.
A connected load considered as not less than one kilowatt.

Combination Rate Light and Heat

For first 40 hours, monthly consumption, 40c per K.W.H.

All over 40 hours, 1½c per K.W.H.

Minimum charge, \$2.50 per month.

Flat Rate

Flat rates for lighting purposes shall be charged at the rate of one dollar (\$1.00) for each 60-watt lamp or equivalent thereof.

Power Rates

(For installations where the demand is less than 100 h.p.)

When the characteristics of the combined electric light and power load are such as will insure a fair kilowatt hour consumption per month, per H.P. of connected load, the following special power rates will be given.

For the first 30 hours use of connected load in H.P., 2c per K.W. Hr.

For the next 30 hours use of connected load in H.P., 1.60c per K.W. Hr.

All over 60 hours use of connected load in H.P., 1.20c per K.W. Hr.

Up to 50 h.p., \$1.00 per h.p. per month.

Over 50 h.p., 75c per h.p. The connected load considered as not less than 2 h.p.

Heating Rates

1½c per K.W. hour.

Where a range and water heater is installed on a double throw switch, and so arranged that the range cannot be used when the water heater is in operation, and vice versa, a special rate of 1.5c per K.W. hour will be given.

Minimum charge, \$2.00 per month.

Wholesale Power Rates

1.3 to 1.0 per K.W. hour.

3% bonus for maintaining 85% Power Factor or better.

Rates quoted on request.

Subject to 15 per cent. discount on all bills paid within 10 days of date of issue of account.

No service charge. No meter rent. No ready-to-serve charge.

ELECTRICAL INSPECTION

Rates on application.

Office—Ground floor of City Hall.

Inspector—G. Notley.

Phone—M1151; Local 34.

Permits to install electric wiring and apparatus issued to Licensed Master Electricians. Journeymen Electricians licensed by the City. Board of Examiners, City Electricians and one each, Licensed Journeyman and Master Electrician.

CENTRAL POWER STATION

Victoria Park (Exhibition Grounds).

Private Office Phone—M5666.

Power House Phone M1151; Local 25. (After 10 p.m. and on Sundays and holidays, M1158).

No. 1 Substation—M1151; Local 26.

No. 2 Substation—M1151; Local 80.

No. 3 Substation—M1151; Local 81.

No. 4 Substation—M1151; Local 82.

CURRENT OUTPUT

All current purchased from the Calgary Power Co. and distributed through the Central Power Station and substations during the year 1929, 74,809,623 K.W. hours.

Current supplied to the Street Railway Department during the year 1929, 10, 431, 779 K.W. hours.

The City pays the Calgary Power Co. for power at the rate of \$0.0074 per k.w.h., and the Calgary Power Co. leases the steam plant for \$75,000.00 per annum.

The maximum peak load during the year 1928 was 28,000 h.p.

Total Electric Current Supplied All Lines For All Purposes:

Year	k.w. Hours
1913	30,188,737
1914	30,188,737
1915	31,106,945
1916	34,102,549
1917	35,061,830
1918	40,063,640
1919	45,960,422
1920	46,392,525

Equipment of Central Power and Substations

Consist of:

Boilers—Water tube, equipped with chain grate stokers and superheaters. Area of heating surface is 78,252 sq. feet, producing nominal power of 7,600 boiler h.p. at working pressure of 160 lbs. per sq. inch.

Alternating Current Units—3, total capacity of 9,350 k.w.

Direct Current Units—550 to 600 volts. Street Railway Service, 9 machines, total capacity 6,550 k.w.

Exciter Units—3, at 110 to 140 volts, total k.w. 250.

Transformers—21,600 k.w., 3-phase step up or down, 12,000 to 2,400 volts in Central and substations.

For detailed information, apply to the Superintendent of Street Railway Department.

CALGARY MUNICIPAL LABORATORY

Office Phone—M1151; Local 75.

Conducts Tests and Analysis for all Civic Departments at scheduled fees. Tests and analysis are also undertaken on building materials, fuels, foods, water, etc., for private corporations or individuals.

THE CITY ENGINEER

City Engineer—A. S. Chapman, A.M.E.I.C., R.P.E.

Office—Second Floor of City Hall.

Phone M1151; Local 78.

Residence—525 13th Avenue W. Phone M6201.

All construction is carried out under the direction and supervision of the City Engineer, also maintenance and improvements. When advisable the Engineer is requested to compete with contractors by tendering on City works.

This official is also Waterworks Engineer, Chief Building, Plumbing and Gas Inspector and directs the Sewer and Paving Departments.

Municipal Asphalt Paving Plant

All paving construction and maintenance has been carried out by this plant since 1914.

Capacity, 3,000 sq. yards, 2-inch asphaltic concrete surface per day. Capitalization \$100,000.00. Equipment also includes stone crushing plant, road equipment and necessary machinery.

Paved streets maintained	64.30 miles
Curb maintained	93.87 miles
Gutter maintained	93.87 miles
Sidewalk maintained	183.28 miles

Permits—Building, Plumbing—at

Engineer's Enquiry Office

Phone—M1151; Local 61.

Building Inspector—H. Walshaw.

Phone—M1151; Local 72; Residence M9077.

Plumbing Inspector—J. Bewick.

Phone—M1151; Local 72; Residence M4312.

Plumbers, Gas and Steam Fitters are required to pass an examination and to be licensed. Information in regard to the above can be obtained from Mr. Bewick.

Plumbers' Licenses

Renewals each year—

Master Plumbers, Steamfitters and Gasfitters	\$10.00
Journeyman Plumbers, Steamfitters and Gasfitters	1.00
Drain Layers	1.00

Plumbing Permit

3 Fixtures or under	\$1.50
All over 3 Fixtures, per Fixture	.50

Drainage Permits

Each	\$1.00
------	--------

Gas Permits

For first run of pipe to meter, with not over ten (10) outlets, a fee of one dollar (\$1.00). All outlets above ten, a fee of five cents (5c) for each outlet.

For each additional run of pipe to meter loop, a fee of 50c shall be charged.

Plans and elevators of all plumbing to be filed. Soil pipe to be medium in a building under five storeys. Soil pipe to be extra heavy in buildings over five storeys.

WATER WORKS

Engineer—Wm. E. Robinson, B.A., Sc., R.P.E., Alberta.

Office—Ground Floor of City Hall.

Phone M1151; Local 72.

Phone—M1151; Local 56 and 57.

Collections Phone—M1151; Local 53.

Residence—519 18th Ave. W.

Phone—M2335.

The Municipal Water Works plant originated in the passing on July 31st, 1899, of Bylaw No. 386 in the amount of \$90,000.00.

The system cost approximately \$3,750,000.00, which money was derived from the sale of debentures, having a life of 30 years.

Revenue is obtained from the following sources: Water rates; an annual special frontage tax of 10c per foot on unimproved properties and of 5c per foot on improved property; sundry.

The revenue takes care of all charges re Water Works, including sinking fund and interest, operation and maintenance, depreciation, repairs, contingent and insurance reserves, and a 5 per cent. tax on the gross earnings, the latter payable to the General Funds of the City.

Calgary obtains its water supply from the neighboring "Bow" and "Elbow" rivers. The intake on the last mentioned river, furnishing a supply of 8,000,000 gallons of water per 24 hours to the City is located about 14 miles west of Calgary in the foothills of the Rocky Mountains, and approximately 300 feet above the level of Eighth Avenue.

The pumping station on the Bow River, situated on Ninth Avenue at Twenty-first Street West, with its present equipment, is capable of supplying 20,000,000 gallons per 24 hours.

A pressure of 85 lbs. per square inch is maintained in the mains and with the aid of the pumps this can be materially increased in times of emergency.

Two reservoirs of 18 and 32 million gallons capacity stand on the gravity line in the west end, and 200 feet above the level of the centre of the City.

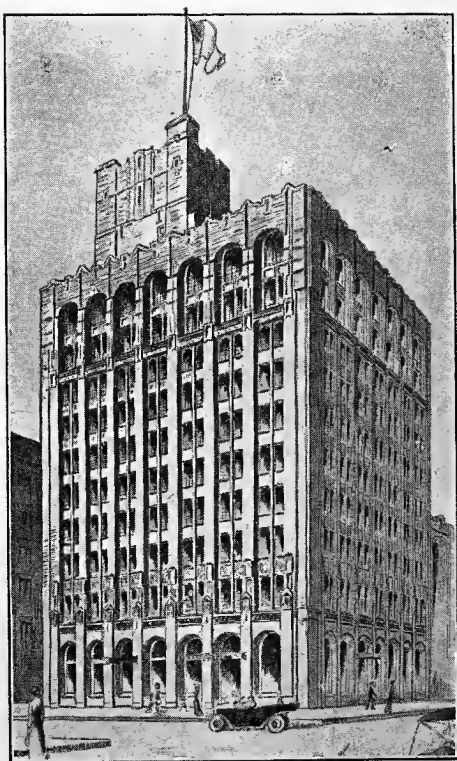

Hilly portions of the City, at too great an elevation to be well supplied by the ordinary water service, are treated as a high-level zone and dealt with independently. Water is pumped into an elevated storage tank of 100,000 gallons capacity from which it is distributed to the said districts.

Only the large services are metered.

DOMESTIC WATER RATES PAYABLE TO THE COLLECTOR

No. of rooms	Rate per annum	Additional conveniences as follows :	Rate per annum
5	\$12.00	Basin in private dwelling, each	\$ 1.00

Seven hundred and sixty-one alarms of fire were received by the Fire Department during the year 1929, involving property valued at \$9,869,800.00, of which amount \$294,259.91 was covered by insurance. Damage and loss to the extent of \$349,942.17 was sustained as a result of fires aforementioned.

CALGARY MUNICIPAL STREET RAILWAY

(Operated by the City Commissioners)

General Superintendent Electric Light, Power and Street Railway Department—R. A. Brown.

Phones—M3126; M1151; Local 30.

Residence—1216 Prospect Ave.

Phone—W1507.

Offices and Car Sheds—Second Street East and Elbow River.

The City of Calgary on July 5th, 1909, with 35,000 population, successfully inaugurated a municipally-owned and operated modern Street Railway System.

A \$250,000.00 by-law was passed in 1907 and one for \$226,000.00 in 1909, providing for the building, etc., of the Street Railway System.

With twelve modern pay-as-you-enter cars the first six months' operation returned operation and interest charge and \$10,000.00 surplus for Contingent Account.

Construction was begun in September, 1908, and one-half mile of track was laid that Fall. On May 1st, 1909, work was recommenced. The power generator arrived July 1st, and the first two cars on July 2nd. The Railway officially opened at 8 a.m., July 5th, 1909, with two cars covering the half-mile between City and Fair Grounds.

During Fair Week 35,460 passengers were carried.

Work was carried on by five paving contractors, one track construction company (on unpaved section only), the City doing all special and overhead work and intersections.

One-man cars were introduced on all City lines in 1917, and are proving satisfactory. Safety of operation is secured, together with a substantial decrease in the cost of operation.

All the line feeders within the business area have been placed underground.

At present power is supplied from the steam plant and four substations. At the steam plant there are two steam driven units of 500 K.W. each and 1,000 K.W. motor generator set. At the substations there are three 1,000 K.W., one 750 K.W., one 500 K.W., and one 200 K.W. motor generator sets.

Power Supply. (See index "Electric").

The Power Department of the City charges the Street Railway for power as follows: .75 of .01c per k.w. hour for first 400,000; all over 400,000, .70 per k.w. hour; \$1,878.75 per month overhead charges. (See Equipment).

Five classes of tickets are used: "School," good to and from school for students up to 17 years of age, and any time for children, 10 for 25 cents; "Ordinary," 18 for \$1.00; 4 for 25c; 2 for 15c; and pads of civic employees' tickets, 18 for \$1.00. (The latter are charged to the departments in which they are used).

No passes are issued to any one, but transfers are made from the various routes at 10 different points.

There is organized in the department a Street Railway Men's Sick Benefit Association. Employees' wages are on a sliding scale, ranging from 65½c per hour to 87½c per hour.

Re Time Table, Special Cars, Rates, Complaints. Phone M1910.

Statistics—See Index.

PUBLIC PARKS

There are now 25 Public Parks in Calgary, with an area of about 751.58 acres, valued approximately at \$2,262,009.25. These Parks are situated in various parts of the City as follows:

Memorial Park—4.42 acres in area, situated between Twelfth and Thirteenth Avenues and Second and Fourth Streets West; modelled in harmony with modern ideas, its geometrical flower beds are a wealth of color during summer months, and is a favorite spot with Calgarians. Contains fine bronze and granite statues erected in memory of those who fell in the recent Great European War and the South African War.

The Calgary Public Library, a beautiful stone building, occupies a place in this Park.

Exhibition Grounds (Victoria Park)—103½ acres. Entrances, Seventeenth Ave. and Second St. East, Seventeenth Ave. and Fourth St. East, Eighteenth Ave. and Second St. East. Comprises all territory between Seventeenth Ave., Second St. East and Elbow River. Contains Exhibition Buildings valued at approximately \$500,000.00, including fireproof Grandstand, accommodating 9,200. Cattle Pavilion for 600 head. The Annual Exhibition (over 210,000 attendance) is held here as well as the Alberta Winter Fair, Horse Show, Purebred Cattle, Sheep and Swine Sales, Wool Sales, Poultry Show, Bonspiel, Hockey and Skating Rinks, Boxing Events, etc. City Stores Power House and Street Railway Barns location. Spur track (C.P.R.) enters park at northeast corner.

St. George's Island Park—Comprising an area of 45 acres of well timbered land, situate in the Bow River, containing zoo, dancing pavilion, bandstand, children's playground apparatus, and cool, shady walks; is visited by the citizens of Calgary en masse during the summer months. This is a great resort for picnic parties.

Access to the Park is obtained by crossing the bridges at Tenth Street East on the north side of the Bow River, and Twelfth Street East to the south side of the river.

Mewata Park—Situate between the Bow River and Ninth Avenue, Eleventh and Fourteenth Streets West; about 33 acres in area, is a spot dear to the hearts of athletes of Calgary. This Park contains football fields, baseball diamonds and children's playground apparatus, with hockey rink and four acres of ice for skating in the winter season. A fine Armoury Building fronts immediately upon Eighth Avenue West.

Riley Park—Facing the Morley Trail, or Tenth Street West, 20 acres in area, is one of Calgary's most beautiful parks. Playground apparatus, wading pool and three pitches and two pavilions provided for cricketers.

Hillhurst Athletic Park—6.43 acres, used solely for Association and Rugby football, hockey and skating. Large grandstands, dressing rooms, and a popular resort for winter pastimes.

Shouldice Park—One hundred acres in extent, situated on the Bow River, two miles from the City limits and about five miles from the Post Office, is one of Calgary's suburban Parks. Preliminary work has been done preparing the ground for future development and picnic ground established. Bowness car passes the Park.

Bowness Park—An island in the Bow River, containing 80 acres of beautifully treed land. A shelter, kitchen and other picnicing, camping, boating and bathing facilities are provided, and many Calgarians take the Bowness car to this ideal summer retreat.

Tuxedo Park—Situate in a subdivision bearing that name and about two and a half miles from the centre of the City; 6.10 acres in area. Football field, children's playground and hockey rink. This Park is in process of development.

Shagnappi Park—This Park, situated in the west end of the city, 147.19 acres in area, has been made into a picturesque, popular and very "sporty" 18-hole Municipal Golf Course. A nine hole course for ladies is in process of development. A well-equipped clubhouse has been erected for the comfort and convenience of players. Reached by the Killarney car. Fees: season, gentlemen, \$10.00; ladies, \$6.00; children, \$4.00; per game, 35c.

Reservoir Park—This Park is 83 acres in area and situate approximately three miles from the Post Office. The City's Reservoir for storage of water is located here.

Elbow Boulevard Park—A 3-acre strip of land on the banks of the Elbow River, reserved for Park purposes in 1923. Developed as an ornamental rest Park.

Crescent Park—A 15-acre area, situate between 2nd and 3rd Streets and 8th and 12th Avenues N.W. Also acquired in 1923. In course of development as an ornamental Park.

Mount Pleasant Park—Six acres on crest of North Hill, just east of Centre St. bridge. In course of development as an ornamental Park.

Capitol Hill Park—Four acres. Football ground in course of development.

Glengarry Park—Four acres. In course of development.

Rosevale Park—Four and one-half acres, situated in Elbow Park. In course of development for football, tennis and children's playground.

Stanley Park—Thirty-nine acres. A portion of this park has been developed as an Auto Camp Ground.

East Calgary Park—Five acres.

Millican Estate Park—Fifteen acres. Undeveloped.

Walker Estate Park—Three acres. Undeveloped.

Bankview Park—Three acres. Undeveloped.

Sixteenth Avenue and Twelfth Street West Park—One acre (playground).

South Calgary Athletic Park—Six and three-quarter acres. In course of development as a football and cricket ground and children's playground.

Mission Park—Three and a quarter acres, undeveloped. Four unnamed and undeveloped areas in South Mount Royal, 4 acres. In course of development. 

Garden Crescent—One-sixth of an acre. Ornamental strip between paralleling driveways.

Elbow Park Bathing Pool Grounds—One-eighth of an acre. Occupied by building used as dressing room for swimming in summer and skating in winter, and children's playground.

Memorial Driveway—A strip extending about two miles along the north bank of the Bow River, and varying in width from approximately 30 to 300 feet. Planted with trees in memory of those who fell in the Great War.

Tompkins Garden—Ornamental plot about half an acre in extent.

Houndsfield Heights Park—Two acres, undeveloped.

South Mount Royal—Four acres. Unnamed and undeveloped.

Bridgeland—One acre. Unnamed and undeveloped.

Union Cemetery—Situated east of Second Street and south of Twenty-sixth Avenue, 48.68 acres in area. The greenhouses of the City stand immediately within the western limits of this property, and the Park Superintendent's residence is on the northern end of the Cemetery. Purchase price, 1890, \$4,230.00. First burial, August 18th, 1896. A drinking fountain and statue are located on the hillside facing the entrance to this Cemetery, which is commanded by a beautiful sandstone arch and gateway. In summer a fine collection of roses and other flowers grow at the Cemetery entrance, being perhaps, Calgary's finest horticultural feature.

Burnsland Cemetery—Adjoining Union Cemetery, on the east side of Macleod Trail; area 30.5 acres. Value, \$23,880.78. First burial, July 16th, 1923.

Calgary has 65½ miles of parking strips and 30,000 trees on its streets.

In addition to the foregoing, small parks and open spaces occupy 15 acres; there are about 93 persons to each acre of Park in Calgary.

In addition to those already specified the Parks Department operates a number of children's playgrounds, skating and hockey rinks.

The Parks Department annually earns a revenue of approximately \$25,000.00 through fees of various kinds and the sale of surplus produce, etc., thus materially reducing the cost of Park maintenance to the taxpayer.

VACANT LOTS GARDEN CLUB

Honorary President—F. J. White, M.L.A.

Past President—Wm. H. Paddy.

President—H. Leonard Wood.

Secretary—L. U. Fowler.

Residence—3615 2nd St. W.

Phone—S0025.

Treasurer—Arthur J. Rogers.

Office—Room 4, City Hall, where meetings of the Executive Committee are held on the Third Tuesday of every month at 8 p.m.

The Calgary Vacant Lots Garden Club was organized in March, 1914, for the purpose of encouraging the cultivation of vacant land in the City. The free use of Lots have been given the club by over seven hundred owners living in many parts of the world, including all the Provinces, many of the States of America, and distant countries, including England, Ireland, Scotland, New Zealand and Switzerland.

In 1929 there were 1,168 members that paid to the club a membership fee of \$1.00 or more; and used about 2,600 lots for the growing of flowers, grain and vegetables. (A lot has an area of 3,000 square feet).

The gardens are judged by qualified men during the last week of July and the first two weeks of August, and liberal prizes are given for the best in the different parts of the City.

The prizes are distributed at the annual meeting of members in November.

CALGARY HORTICULTURAL SOCIETY

President—C. A. Hayden, c-o The Calgary Herald. M7981.

Secretary-Treasurer—Max E. Knirck, 421 Scarboro' Avenue. W2563.

This Society, the pioneer organization of its kind in this City, was organized 21 years ago. It has been the great factor in developing the "City Beautiful" idea, by encouraging the beautification of home surroundings and the cultivation of gardens. It annually holds a competitive Horticultural Exhibition, which is one of the social events of the year.

Each winter a course of meetings is held for giving of lectures and the discussing of subjects connected with the theory and practice of gardening.

The objects of the Society are to encourage horticulture in all its branches.

CRESCENT HEIGHTS & DISTRICT HORTICULTURAL SOCIETY

President—Leonard J. Jones, 409 23rd Ave. N.W.
Phone H1471.

Sec.-Treasurer—S. T. Richardson, 224 20th Ave.
N.W. Phone H2891.

This Society was formed eleven years ago for the purpose of stimulating interest in horticulture in that part of the city north of the Bow River.

In addition to other activities an annual show is held in August, at which much keen competition is shown. The show has improved year by year both in quality and number of exhibits, thus proving the interest taken in gardening in the city. The membership of the Society is 600.

CALGARY PUBLIC MUSEUM

Operated by the City Commissioners of the City of Calgary, commencing with the year 1928.

This Museum is an Incorporated Society operated by a body of citizens. It is located in the Commercial High School, 515 First Street East, and is open from 10 a.m. to 12 noon and from 1 p.m. to 5 p.m., except Sundays and holidays. Donations will be gratefully received by the Committee and specimens worthy of exhibition are always welcome, whether by way of gift or by way of loan.

Officers

Hon. President—Leonard Brockington, K.C.

Hon. Treasurer—Hon. Lt.-Col. J. H. Woods.

Secretary—Assistant City Clerk L. A. Campbell, City's Clerk's Office, City Hall, to whom all communications should be addressed.

Board of Directors

Leonard W. Brockington, K.C.—Chairman Membership Committee.

Hon. Lt.-Col. J. H. Woods—Chairman Finance Committee.

D. C. Bayne—Chairman Exhibits Committee.

H. G. Hunt—Chairman Arts Committee.

Dr. W. H. McGuffin—Chairman Educational Committee.

G. E. Leighton—Chairman Publicity Committee.

Geo. Walker, E. T. Chritchley and H. E. Howard.

CALGARY PUBLIC LIBRARY

Calgary Library

Twelfth Avenue and Second Street West (Memorial Park).

Secretary-Treasurer and Librarian — Alexander Calhoun, M.A.

Library Board—See Index.

Phone—M3524.

Hours of Opening

Week days -----9 a.m. to 9.30 p.m.

Wednesdays -----9 a.m. to 1 p.m.

Sundays -----2 p.m. to 6 p.m.

The Library is closed entirely on New Year, Good Friday, Victoria Day, King's Birthday, Dominion Day, Labor Day, Tranksgiving Day and Christmas Day.

Crescent Heights' Branch

1806 First Street N.W., in the Hicks Block.

Open from 2 to 5.30 p.m. Mondays, Wednesdays, Fridays and Saturdays; and 7 p.m. to 9 p.m. on Tuesdays, Thursdays and Saturdays.

Closed on Sundays and Holidays.

Membership

Any citizen of Calgary is entitled to a free membership on signing application card, proving his address and furnishing the names of two friends.

History

It is about twenty years since a little group of Calgary citizens began to interest themselves in securing for Calgary a Public Library. Calgary was at that time a City of only about 15,000, and it took time for the scheme to mature. However, in 1908, a Library Board was formed; in 1909 the building was begun, and on January 2nd, 1912, it was opened to the public.

The building and equipment have cost \$100,000.00. Of this sum \$80,000.00 was provided by Mr. Andrew Carnegie and \$20,000.00 by the City Council.

It is noteworthy that this Library was the first Public Library in Alberta and the second between Winnipeg and the Rockies.

Constitution

The Calgary Public Library is administered by a Library Board of seven members, the Mayor being an ex-officio member, and the remaining six being appointed by the City Council for two years.

The Library is organized under the Provincial Libraries' Act, which empowers the City to levy a library rate not exceeding one mill on the dollar on assessable property.

Statistics, 1929

Total number of volumes -----	44,803
Total number of borrowers -----	21,282
Total circulation -----	480,974
Total civic grant -----	\$32,000.00
Per capita cost to City -----	40 cents

PROVINCIAL NORMAL SCHOOL

Principal—E. W. Coffin, Ph.D.

Phone—L1195.

Location—North Hill, Thirteenth Avenue N.W.,
Calgary, Alberta.

Established on the formation of the Province of
Alberta in 1905 for the training of teachers for the
Public Schools.

Length of Course—Eight months, September to
June.

Educational standing required for admission—For
First Class, Grade XII, or equivalent from abroad,
or at least two years in University; for Second
Class, Grade XI or equivalent. Fees, \$25.00.

On the completion of this course candidates re-
ceive a First Class or a Second Class Interim Cer-
tificate, valid for one year. This Interim Certificate
is made a permanent Professional Certificate after
two satisfactory reports from the Inspector and on
his recommendation, and on the completion of a
Reading Course as published in the syllabus.

The Normal School is controlled directly by the
Provincial Department of Education. Application
for admission as well as for information in regard
to standing in this Province of qualifications ob-
tained elsewhere, should be made to the Deputy
Minister of Education, Edmonton.

For the first two years of its existence the Normal
School occupied rooms in the Central Public School.
In 1907 the Normal School Building on Sixth Street
West was completed, and here the work was carried
on until July, 1922, when the Normal School was
moved to occupy the west end of the new building
erected for the Institute of Technology and Art.

PROVINCIAL INSTITUTE OF TECHNOLOGY AND ART

Principal—W. G. Carpenter, B.A., L.L.D.

Vice-Principal—James Fowler, M.A., B.Sc.

Phone—L1124.

Evening School Director—L. H. Bennett, M.R.A.I.C.,
M.R. San. I.

Location—North Hill, Thirteenth Avenue N.W.,
Calgary, Alberta.

In 1916 the Provincial Government, through its Department of Education, established the Institute of Technology and Art in Calgary. It was housed temporarily in school buildings in East Calgary until the three new buildings were designed, completed and occupied in the fall of 1922.

The main building, which is 340 feet long and is 90 feet in depth, provides accommodation for class rooms, administrative offices, staff rooms, library, gymnasium and auditorium. The workshop building, 317 feet long and 100 feet in width, is divided into units providing shops for the various courses. The power-house in the rear consists of a boiler-room, from which all the buildings are heated. A modern Power Plant unit has been installed to supply the Institute with electric power for service and for instructional purposes. A new wing was added to the shop building in 1926. This wing is 150 ft. by 70 ft. and houses the automobile department.

An additional wing was added to the Tractor Dept. in 1928. This gives an additional 10,000 square feet of space in which a shop 154 feet by 40 feet is provided and a lecture room built on the amphitheatre style to seat 250 persons.

The type of instruction given at the Institute is of an advanced vocational or semi-professional character. In each course half-time is devoted to shop work, conducted as far as possible under industrial conditions, the remaining time being devoted to class-room work in such allied subjects as mathematics, drafting, science, English, and the theory of the particular course taken.

In addition to the regular day classes, instruction is also given by means of evening classes and correspondence courses.

At the present time courses are given in the following subjects:

Full Day or Part-Time Courses in—

Industrial Mechanical Engineering (for Steam Engineers).

Industrial Electricity.

Motor Mechanics (Automobile).

Tractor Engineering.

Automotive Electricity.

Architectural Drafting.

Mechanical Drafting.

Survey Drafting.

Dressmaking and Millinery.

Farm Construction and Mechanics.

Railway Station Agent and Telegraphy.

Acetylene and Electric Welding.

Art, Building Construction.

Machine Shop Practice.

For the year 1928-1929 the enrollment in the various courses was as follows:

Enrollment for 1928-29

PROVINCIAL INSTITUTE OF TECHNOLOGY

(Continued)

To show that the work of the Institute is provincial in its scope, it may be noted that of the day students enrolled 71.2 per cent. were from points outside the City of Calgary.

All students entering the Institute must be over 15 years of age, and except in a few special courses no other entrance qualification is demanded.

The fees are—

Regular Courses ----- \$30.00 per school year

Short or Special Courses

(less than 6 weeks) ----- 10.00 per course

Evening Classes ----- 10.00 per course

Correspondence Courses—

1st Class -----	40.00 per course
2nd Class -----	25.00 per course
3rd Class -----	15.00 per course
Elem. Steam -----	10.00 per course

(Note: Apparent decrease due to change in statistical year, 1922).

Schools, 1929—54 Public; 6 High.

Admission of Pupils

Pupils coming into the City are admitted to school at any time of the year, except in the case of beginners in the Primary or Grade I Class. Beginners are admitted once each year, at the 1st of September. Application for admission of a pupil should be made to the Principal of the School.

Free Text Books

The necessary Text Books and supplies, including exercise books, pencils, etc., are supplied free to all pupils in the Public Schools, Grade I to VIII.

Medical Inspection

The School Board, in conjunction with the Separate School Board, carry on a thorough system of medical inspection with a staff of eight nurses and an examining physician, under the Medical Inspector, Dr. G. Oakley. In addition to the inspection there is a clinic for the treatment of the teeth of school children. This clinic is open, without charge, to all school children of the City not over 15 years of age. In addition to this, arrangements have been made by the Medical Inspection Department to have all cases requiring treatment referred to the family physician and given whatever care or treatment is necessary to insure satisfactory health, also all cases of defective sight are referred to one of the specialists and care is taken to see that they are fitted with proper glasses or given the necessary care to conserve their sight.

Practical Nature of Course of Studies

In all the Public or Elementary Schools of the City the practical subjects occupy a foremost place. Woodwork is taught in the Manual Training Shops to all the boys in Grades VII and VIII; two hours per week. The girls of Grades VII and VIII spend the corresponding time in sewing, cooking and of the study of Household Management. These subjects are taught in fully-equipped laboratories by teachers specially qualified for the work.

In all the classes from Grades I to VI, a well-planned course of Elementary Handwork is carried on throughout the year; this has proved itself a most valuable and interesting training.

Art, Music and Physical Culture, including Cadet and Physical Training for the Senior boys, and Strathcona Trust Physical Exercises for the Senior girls give a further enrichment to the Course of Studies.

Pre-Vocational School

In the Victoria Pre-Vocational School classes in Grades VII and VIII are taught the ordinary book-work subjects, and also woodwork, metal work, leather work, printing, typewriting, dressmaking, millinery, cooking, home nursing, art, design and mechanical drawing; half time being devoted to academic studies and half time to industrial work. The following classes of pupils are recommended for the Pre-Vocational classes: those who are not getting along in their ordinary Grade work; those who do not intend to go to University or to take a full High School Course; those who must go to work on leaving school: those who intend to take a course in the Institute of Technology, fitting them for better positions in industrial pursuits.

The purpose of the School is to arouse interest in doing and transfer this interest to studying. There are now six classes comprising about 220 pupils.

High Schools

The High Schools offer the prescribed courses for Normal Entrance and University Matriculation as well as a General Course for those desiring it. These include the study of English, History, Mathematics, Sciences, Art and Languages. The Fourth Year of the High School leads to Senior Matriculation and corresponds to the First Year of the University.

Commercial High School

The Commercial High School, while giving special training in Typewriting, Stenography and Book-keeping, aims to equip students for the higher business pursuits by giving thorough instruction in English, History and Commercial Law. This school, situated at 515 First Street East, is conducted by practical business teachers. It offers regular courses covering two and three years, ten months' short courses for students who have completed Grade IX, and special courses, usually lasting five or six months, for advanced students.

Technical High School

The Technical High School, opened in September, 1929, was organized for the benefit of students desiring Practical rather than purely Academic Courses. Its purpose is to give students an educational foundation for:

- (a) Industrial occupations which they may enter as apprentices.
- (b) Vocational courses at the Provincial Institute of Technology.

(c) Entrance to other occupations.

(d) Continuance of further studies.

Instruction is given in such practical subjects as Woodwork, Metal, Electricity, Motor Mechanics, Home Economics, Household Arts, Drawing and Design. The Academic subjects taught include English Literature and Composition, Industrial History and Economics, and related work in Science and Mathematics calculated to lead to a clear understanding of the practical subjects.

A two-year course is now being given, the course for the Third Year is in course of preparation for the coming school year.

The High Schools, as well as the Prevocational and Elementary Schools, are organized so as to give students, desirous of entering industrial or commercial life, the proper equipment of academic knowledge and practical training to prepare them to enter the Institute of Technology and Art and profit by the courses there given for the various types of industrial activity suited to Alberta's needs and conditions.

Non-resident High School pupils are charged the following fees:

Grades IX, X and XI and the Commercial High School, \$3.00 per month, or \$30.00 per year.

Grade XII, \$4.00 per month, or \$40.00 per year.

Night Classes

Evening classes in Shorthand, Typewriting, Book-keeping, Penmanship, Commercial Law, etc.; in general subjects of the Elementary School Course; in English for non-English speaking adults; in Matriculation subjects of the High School Course; and in the practical subjects of the Technical High School Course are held from September to April each year. Commercial classes are held in the Commercial High School; Continuation Classes for elementary school work and English for foreign-born in McDougall School; Matriculation Classes in the Central High School, and Technical Classes in the Technical High School. The regular evenings for classes are Monday and Thursday each week.

Local Improvement:

Ratepayers'			
Share	\$ 5,847,009.87	\$ 3,666,507.80	
Municipality's			
Share	2,461,617.46	1,271,805.62	\$ 6,525,298.88
General	8,021,697.97	2,694,269.79	
Sub Total	\$16,330,325.30	\$ 7,632,583.21	\$ 6,525,298.88
Total	\$26,023,320.25	\$11,659,161.00	\$10,551,876.67

Public Utilities:

Result for year ending 31st December, 1929

	Profit (deducting Operating Expenses only	Net Profit after de- ducting operating expenses, Depreci- ation and Interest and Sinking Fund on Debt	
Waterworks ----	\$244,560.42	\$ 8,293.35	Surplus
Electric Light & Power ----	352,647.09	74,323.91	Surplus
Street Railway -	340,120.05	99,604.10	Surplus
Paving -----	50,653.93	40,547.67	Surplus
	<u>\$987,981.49</u>	<u>\$222,769.03</u>	<u>Surplus</u>

Hospitals: (Cost to ratepayers merged in General).

General:

Present population. Estimated 85,000.
Population 5 years ago. Estimated 70,000.
Area of Municipality, 25,368 acres.

Additional:

Percentage of Improvements Taxes in 1929—50.
Percentage of Land Taxes in 1929—100.

Amount of Tax Sale Lands and Tax Sale
Certificates held at 31st Dec., 1929 ---\$2,775,805.81

Amount of arrears of Taxes collected dur-
ing 1929 (including lands taken over by
City as settlement for Taxes under Tax
Recovery Act of Alberta) ----- 388,324.42

What amount of the total outstanding
bonds as indicated above is issued by
the instalment method ----- Nil

What amount of the total outstanding
bonds is issued by the Sinking Fund
method ----- All

What is the amount of Unsold Debentures
included in above ----- Nil

Amount of bonds guaranteed by Muni-
cipality ----- Nil

Amount of Debentures such as Schools,
Draining, Telephones, Hospitals, etc.,
not included in above for which Muni-
cipality levied Taxes (these may be
jointly shared by other Municipalities Nil
Amount of Municipality share of above -- Nil

Total other Liabilities including Floating Debts (excluding all surplusses and reserves not deducted from Assets, amounting to \$3,290,101.63)	-----\$1,371,415.47
Current Revenue (General only) year 1929	----- 4,292,214.91
Current Expenditure (General only) year 1929	----- 4,200,691.80
Surplus	-----\$ 91,523.11

I believe the above information to be correct.

(Sgd.) W. C. WOOD,

City Comptroller.

Office of the City Comptroller,
Calgary, April 10th, 1930.

TELEPHONES

Number of telephones: 21,787 Stations.

The Telephone System in use in the City of Calgary is a portion of that owned by the Provincial Government, known as the Alberta Government Telephones, and affords telephone communication throughout the Province of Alberta.

Calgary has also long distance telephone connection with all points in British Columbia, Saskatchewan, Manitoba, Eastern Canada, United States, Cuba, Scotland, England and Wales, and certain points in European countries. For information and rates see Telephone Directories or call "Long Distance."

Radiating from the City, north, south, east and west, are 64 Rural Circuits to which are connected 631 Rural Subscribers, who have direct connection with the City.

Automatic phones are the order of the day in Calgary, and "Central" has employment only with those firms who have installed private switchboards.

The following are the rates charged for telephone service in the City:

Business—

One Desk Set, per month	-----\$6.25
One Wall Set, per month	-----\$6.00

Letter Carrier Deliveries

In all residential districts there are two deliveries
each week-day, commencing at 8 a.m. and 2.30 p.m.
In the central or business district there are four
deliveries each week-day, at 8 a.m., 10 a.m., 2.30
p.m. and 4 p.m.

On week-days the street letter boxes (according to
location) are cleared from seven times a day in the
central districts to twice in the outside, except
Sunday.

On Sunday, street letter boxes are cleared at 5 p.m.

On Public Holidays—Christmas Day there is a
morning delivery at 8 o'clock. There is no delivery
on New Year's Day. The outgoing mails are closed
as usual. Street letter boxes are cleared at 8 p.m.
only. The General Delivery, Insurance and C.O.D.,
Registration and Stamp Wickets are open from 8 to
10 a.m.

On Saturdays, except between December 16th and January 6th, there is only one letter carriers' delivery in the residential district, while two deliveries are made throughout the business centre at 8 and 10 a.m. respectively. All wickets close at 1 p.m., except General Delivery, Registration, Insurance and C.O.D. and Stamp Wicket, which are open to 9 p.m.

(Canadian Co-Operative Wheat Producers Ltd.)

Pool Elevators Ltd.—R. D. Purdy, Manager.

Incorporated August 18th, 1923, under

The CO-OPERATIVE ASSOCIATIONS ACT

The Alberta Wheat Pool has been in operation for six years and in that time has handled 284,985,397 bushels of wheat, with a total turnover of \$339,938,385.36.

Alberta Wheat Pool is a strictly co-operative organization with a membership of approximately 41,000 farmers. It handles the grain produced from over 4,675,000 acres.

Alberta Pool Elevators Ltd. is a subsidiary of the Alberta Wheat Pool and at the commencement of the year operated 433 line elevators in Alberta with a total capacity of over 16,620,300 bushels, also three terminals on the Pacific Coast with a total capacity of 8,150,000 bushels.

Alberta Wheat Pool is associated with the wheat pools in Manitoba, Saskatchewan and Ontario in the organization of the Canadian Co-operative Wheat Producers, which is the central selling agency for all four pools. This central agency last year had a turnover of \$288,000,000.00.

UNION OF ALBERTA MUNICIPALITIES, 1930

President—A. D. Shrimpton, Mayor Strathmore, Alta.

Secretary-Treasurer—J. D. Saunders, Camrose.

14	Pounds	=	1	Stone
100	Pounds	=	1	Hundredweight
2000	Pounds	=	1	Ton

Dry Measure

2	Pints	=	1	Quart
4	Quarts	=	1	Gallon
2	Gallons	=	1	Peck
4	Pecks	=	1	Bushel

Liquid Measure

4	Gills	=	1	Pint
2	Pints	=	1	Quart
4	Quarts	=	1	Gallon
1	Cubic Foot of Water	=	1000	Ounces (approx.)
1	Cubic Foot of Water	=	6 $\frac{1}{4}$	Gallons (approx.)

Lineal Measure

12	inches	=	1	Foot
3	Feet	=	1	Yard
5 $\frac{1}{2}$	Yards	=	1	Pole, Rod or Perch

Square Measure

14	Square Inches	=	1	Square Foot.
9	Square Feet	=	1	Square Yard
30 $\frac{1}{4}$	Square Yards	=	1	Square Rod
160	Square Rods	=	1	Acre
640	Acres	=	1	Square Mile

Cubic Measure

1728	Cubic Inches	=	1	Cubic Foot
27	Cubic Feet	=	1	Cubic Yard
128	Cubic Feet	=	1	Cord

Street Traffic Rules

EXTRACTS FROM BY-LAY No. 2494

(The Traffic By-law of the City of Calgary; copy to be had from the City Clerk).

Don't park within 15 feet of a fire hydrant.

Don't park within 15 feet of a corner (property line).

Don't park more than 12 inches from the curb.

Don't park where police signs are erected.

Don't park in front of a fire escape.

Don't park so as to block entrance of public buildings.

Don't turn a corner without first giving a signal.

Don't turn in the middle of a block.

Don't turn corners at a greater speed than 10 miles per hour.

Don't make a complete turn at First Street West and Eighth Avenue intersection.

Don't pass a standing street car.

Don't use a muffler cut-out.

Don't omit to report accidents to the Police Department.

Don't allow anyone to ride on the running board.

Don't travel faster than 20 miles per hour in the City.

Don't travel even that fast on crowded streets, as the law demands you to go no faster than is reasonable and proper, having regard to the safe use of the streets.
